

The school district boundaries displayed on this map were created as a result of a boundary review partnership project during March and April 2004. The Michigan Department of Education (MDE), the Michigan Center for Geographic Information (MCGI), and the U.S. Census Bureau, in cooperation with each school district and intermediate school district (ISD) in Michigan, participated in the project. Boundaries revised by the districts were voluntary and all the school districts displayed may or may not have participated.

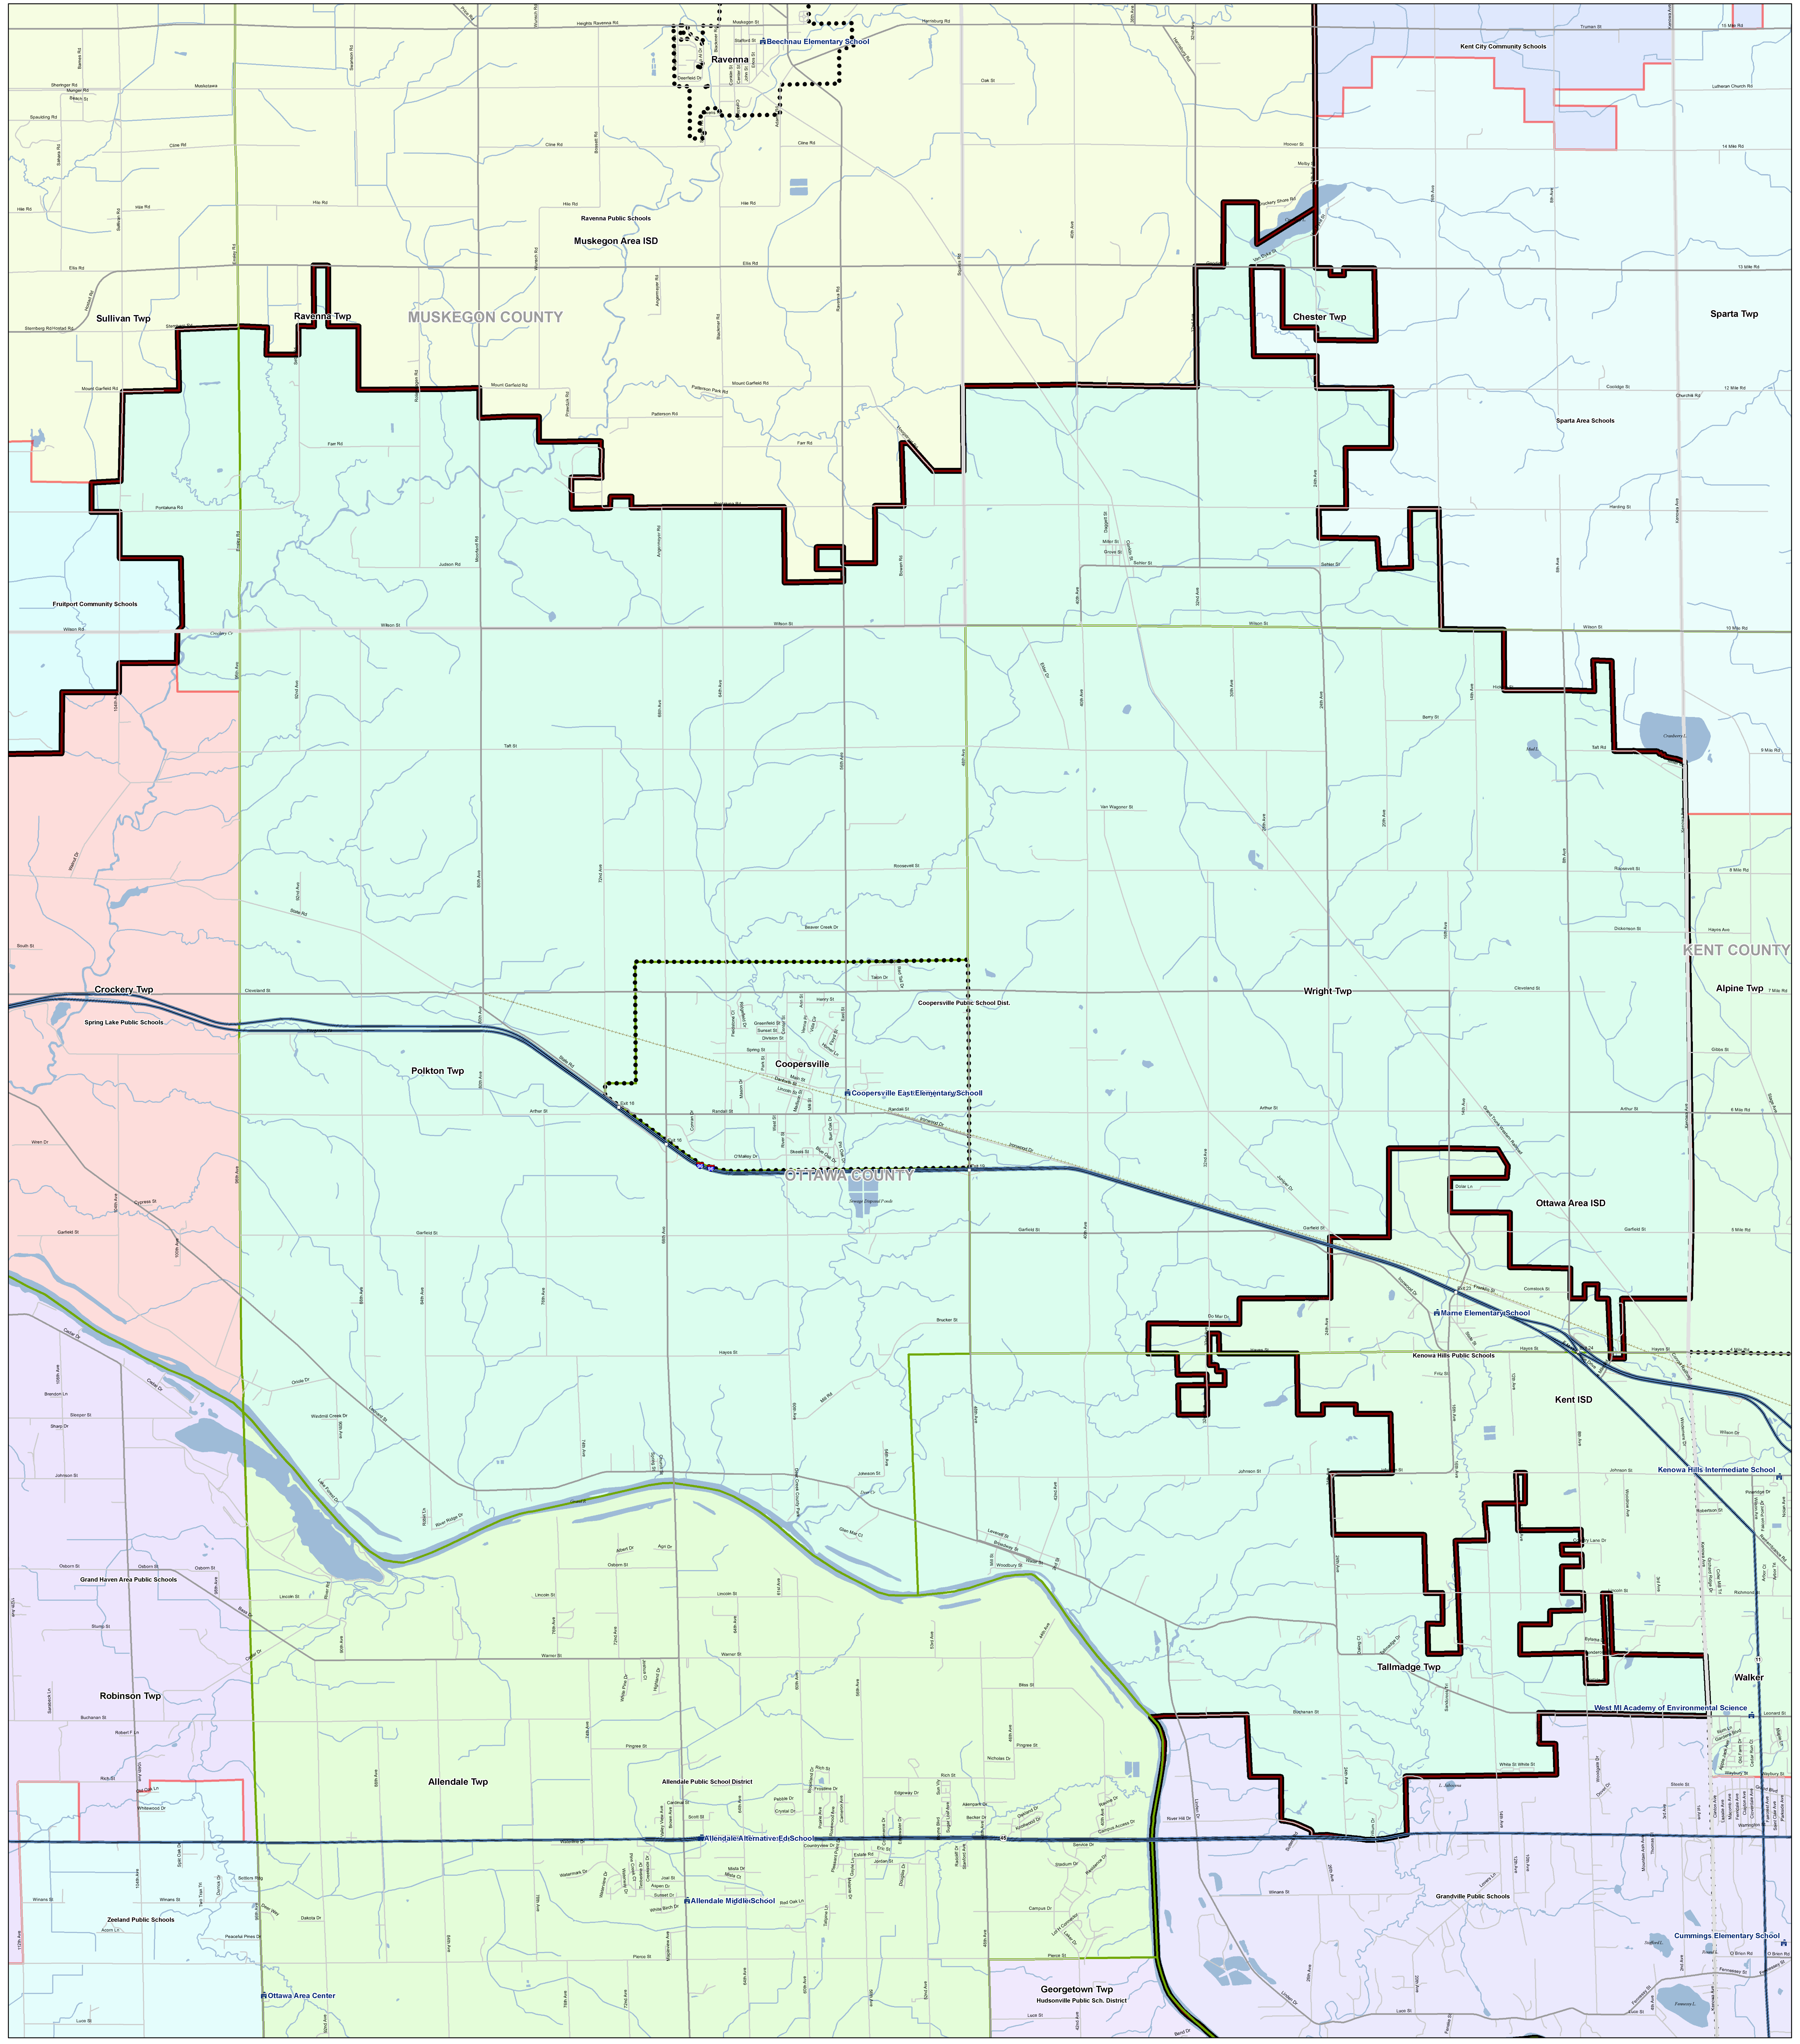

Information provided is accurate to the best of our knowledge and is subject to change on a regular basis, without notice. While MCGI makes every effort to provide useful and accurate information, we do not warrant the information to be authoritative, complete, final, or timely. Information is provided on an "as is" or "as available" basis. The State of Michigan assumes no liability for any errors or omissions, including as a consequence, directly or indirectly, resulting from the use and application of any of the contents of this map.

Please feel free to contact MCGI with questions regarding the boundary mapping process. However, it should be known that school districts and ISDs are the official authority in determining school district boundaries. If you believe that there may be an error in a boundary, please contact the affected school district and ISD(s) for clarification and possible resolution. MCGI will welcome the opportunity to incorporate authorized boundary changes into our map information when invited.
